

Curriculum Newsletter

Year 2 Spring 2025

Mr Caddick

Miss Newey

Mrs Priest

Mrs Harper

This is a summary of the learning programme for your child this term;

	English	Our English will be inspired by our topic and we will be developing writing skills through a range of genres. In addition to guided reading sessions, we will hear your child read individually every week and discuss the book with them to develop and assess their understanding.
	Maths	This term we will be focussing on multiplication and division. We will also be exploring 2D and 3D shapes, measuring and recording length, height, mass, capacity and temperature.
	Geography/ Design Technology	Our exciting new topic is Amazon Adventures. We will have an amazing start to our topic with a visit from 'The Animal man'. We will be learning about the world's continents and oceans before immersing ourselves in its rainforests and the Amazon. We will be learning all about the wonderful plants and animals, taking inspiration from the artist Henri Rousseau and making pop-up books in Design and Technology.
	Science	In Science we will be learning all about living things and animals. We will identify and classify plants and animals, and look at how they adapt to their habitat. We will also be exploring food chains.
	Religious Education	Children will learn about how people pray and different types of prayer; the children will also write their own prayers. We will look at how Easter is celebrated in more detail and what the Easter story means to them. We will also start to learn about Judaism, the celebration of Purim and why it is celebrated.
	Music	Music lessons will be with our specialist teacher Mrs Gullick. The children will listen to and recreate the sounds of the rainforest using body percussion and instruments. Alongside this, they will continue to learn new songs and develop their understanding of rhythm, beat and pitch.
	PSHREE	We will be thinking about the different communities that we belong to and our roles and responsibilities within them. We will be learning about how we use money and how to keep it safe. Also, we will learn about how we use technology in everyday life. Our values for this term are Happiness and Kindness.
	Computing	In Computing we will be discussing online safety and we will also start to learn about common uses of technology beyond school. Children will also use a paint program to design an artistic, appealing front
	PE	Our first PE focus this term will be gymnastics including jumps, balances and rolls which will be sequenced together to create a routine. The children will also be learning and practising multi-skills before moving onto racket and catching skills.

Further information:

- Please ensure all jewellery is removed and appropriate kit is in school on P.E. days.
- Homework will be set each week on a Friday, to be returned by the following Wednesday.
- Please read as much as possible and ensure reading books and records are in school daily.
- Please ensure your child's love of reading book is in their bag each day.
- Please could all the children's belongings be labelled.
